

Evol.TM

Evol Cargo – GCC Oil & Gas Cross-Border Transport

High-Performance Logistics for
Critical Energy Operations

Evol.TM

About Us

Evol Cargo specializes in seamless, fast, and compliant cross-border transport across the GCC.

We support the Oil & Gas sector with time-critical deliveries, hazardous materials transport, and full visibility across all operational corridors.

Evol Cargo is present in more than 25 countries worldwide.

We are part of the

GCC Coverage

Our core cross-border corridors include:

Evol.™

Each route is optimized for **speed, safety, and customs compliance.**

Evol.TM

Our Capabilities

Full Truckload (FTL), flatbed, lowbed, heavy haul

Hazardous material transport (ADR-compliant)

Project logistics & rig support

Remote area and refinery access

Customs documentation & brokerage

24/7 operations support

Evol.TM

Oil & Gas Specialization

We understand the mission-critical nature of Oil & Gas logistics:

- ✓ **Critical spare parts delivery to rigs and refineries**
- ✓ **Strict HSE compliance and certified driver training**
- ✓ **Zero-downtime operational philosophy**
- ✓ **Experience with sensitive, hazardous, and oversized cargo**

Our Fleet & Equipment

**Flatbeds / Curtain
side trailers**

**Hazardous-
certified vehicles**

**Lowbeds
(multiple capacities)**

**GPS-enabled
trucks with real-
time telematics**

**Escorts and
permits arranged
when needed**

HSE & Compliance

ISO-driven processes

ADR-compliant handling

Strict PPE and driver protocols

Incident reporting & risk management framework

Evol.TM

Control Tower & Visibility

Real-time GPS tracking

Predictive ETAs

24/7 milestone reporting

**Direct communication
channels for clients**

Evol.

CASE STUDY

Critical Spare Parts Delivery

SITUATION

Emergency delivery needed for essential refinery component.

ACTION

Pickup within 90 minutes, cross-border clearance facilitated.

RESULT

Delivered in under 30 hours, avoiding extensive downtime.

CASE STUDY

Heavy Equipment Transport

SITUATION

Oversized rig equipment required movement across GCC.

ACTION

Route survey, permits, and escorts arranged; lowbed used.

RESULT

Delivered safely and on schedule despite complex coordination.

**Fastest GCC corridor
transit times**

Key Strengths

Evol.TM

**Oil & Gas-trained
teams and drivers**

**High compliance,
safety-first culture**

**Dedicated capacity for
time-critical cargo**

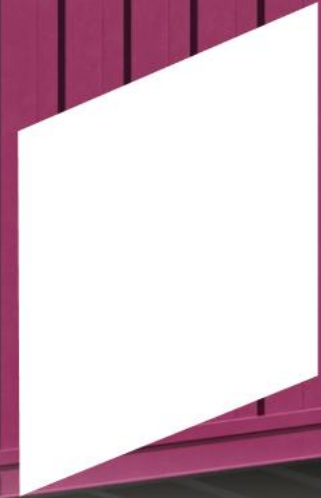

**Proven experience in
complex cross-border
moves**
