

Evol. Food & Beverage

Specialist Logistics for Food & Beverage Supply Chains

Logistics for food and beverage importers, distributors, manufacturers, retailers and hospitality groups, covering frozen, chilled and ambient products.

Coordinating logistics to selected markets worldwide.

Welcome to Evol. Food & Beverage

Specialist Logistics for Food & Beverage Supply Chains

Evol handles UAE imports of frozen and chilled food, including fish and dairy, alongside alcoholic and non-alcoholic beverages.

We support importers, distributors and manufacturers, as well as retailers, restaurants and hospitality groups, with freight and delivery coordination built around their products.

From origin collection to final delivery, we bring freight, customs and service providers together around your product requirements and delivery schedule.

Our Solutions

Air, ocean and road freight

Frozen and chilled transportation

Reefer container solutions

Ambient food and beverage cargo

Customs clearance and regulatory coordination

First- and last-mile delivery

Transit and re-export through Dubai

Time-critical and urgent shipments

Seasonal and hospitality supply support

From origin to your warehouse or customer, Evol keeps food and beverage shipments moving across your supply chain.

Our Approach. Your Advantage.

Product Integrity

Handling and transport are planned around your product specifications, packaging and agreed delivery conditions.

Temperature-Controlled Solutions

Frozen and chilled shipments, including fish and dairy, are coordinated with suitable reefer equipment and specialist service providers.

Regulatory Coordination

We coordinate customs procedures and import documentation with customers and local specialists, according to product and destination requirements.

Shipment Visibility

Clear shipment milestones and proactive updates help you follow progress and plan receiving, stock replenishment and onward deliveries.

Retail & Hospitality Supply

We support importers and distributors supplying retailers, hotels, restaurants and catering businesses, with deliveries aligned to agreed schedules.

Flexible Solutions

Regular replenishment, seasonal demand and urgent shipments are supported with routing and transport options matched to your operational priorities

Dubai Gateway

Dubai connects our import, transit and re-export services with distribution across the UAE and GCC, coordinated around destination requirements.

From Producer to Market

From frozen and chilled food to ambient products and beverages, Evol supports importers and distributors supplying retail and hospitality markets.
